

BookBrowse
for Libraries

What is BookBrowse?

BookBrowse is an affordable readers' advisory solution for public libraries, specializing in selective book recommendations and providing in-depth coverage of, and enriching resources about, the very best books.

Editorial Focus

Because people don't have the time to read *about* every book, let alone read all of them, BookBrowse seeks out and recommends only the best in contemporary fiction and nonfiction. We feature high-quality, well-written books across a range of genres, mainly for adults, with some outstanding YA—books that not only engage and entertain but also deepen our understanding of ourselves and the world around us.

Who will enjoy BookBrowse?

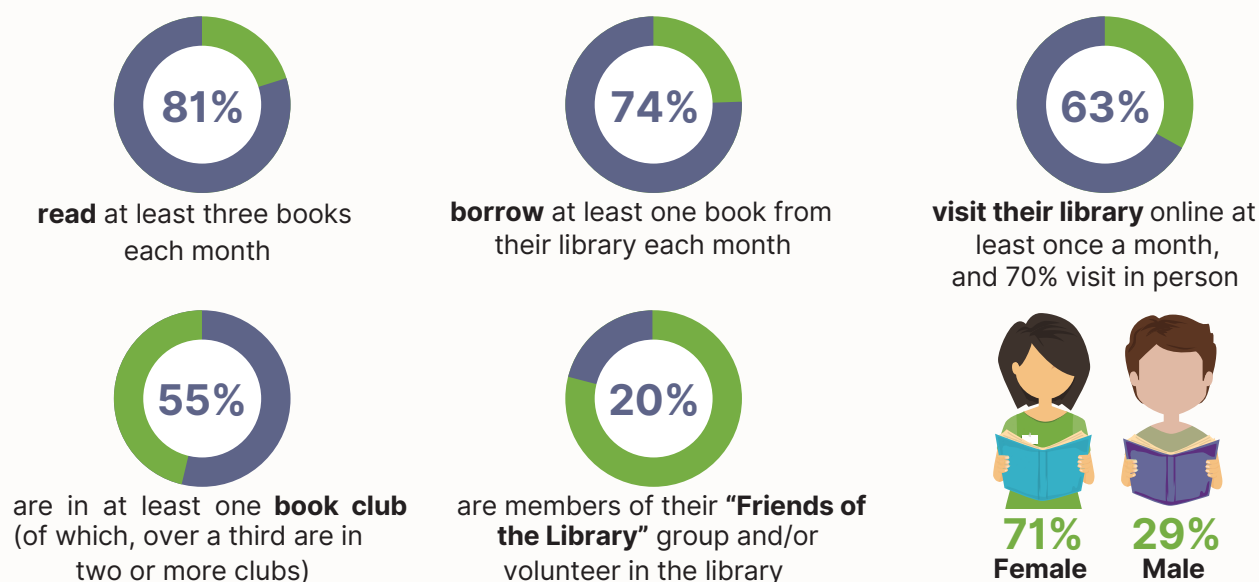

Our editorial focus and extensive reading group resources make BookBrowse perfect for book club members; readers looking for an enriching reading experience; and busy librarians responsible for collection development, readers' advisory and book club organization.

THE MEDIA SAYS...

"When we saw that BookBrowse had won Gold in the Modern Library Awards, we weren't surprised. Our judges—librarians in public, academic, K-12, and special libraries—obviously agreed that BookBrowse has a significant role to play in their libraries for their own research and for their patrons."
